Annual Subject Index

January 15–December 30, 2001

ADOLESCENT MEDICINE

Contagious diseases in athletes. 10/30:23-28
Treating the obese teenager. 10/15:57-70

AIDS/HIV

Drug Spotlight: A practical update on antiretroviral therapy. 1/15:99-106

ALZHEIMER'S DISEASE

AD research: 2001 and beyond. 2/15: 87-105
Contemporary drug treatment. 2/15: 54-67
Managing problem behaviors in AD. 2/15:34-53
Providing care for the caregiver. 2/15: 68-86
Strategies for early diagnosis. 2/15:22-32

CANCER

Cancer and heart disease: Lowering the risks. 8/15:71-91
Cancer screening in older patients. 11/15:17-24
Colorectal cancer screening: New directions, evolving guidelines. 2/28:24-34
Integrative Medicine: Nutrition and cancer prevention. 8/30:21-30
Lung cancer: Early intervention is key. 10/30:12-22
Men's Health: Focus on penile disorders. 1/15:51-61
New issues in breast cancer. 5/15:40-59
The latest approaches to pancreatic disease. 9/15:55-70
Women's Health: Ovarian cancer screening: An ongoing challenge. 7/30:14-20

CARDIOVASCULAR DISEASE

Acute coronary syndromes: Recent treatment advances. 11/30:12-24
Cancer and heart disease: Lowering the risks. 8/15:71-91
Diastolic heart failure: A clinical quandary. 4/30:13-24
Emerging cardiac risk factors. 5/30:38-50
Evaluating the patient with chest pain. 3/15:54-72
Finding and using cardiology guidelines. 7/15:48-65
Heart disease in older women. 5/15: 60-73
Revascularization in the 21st century. 1/15:82-98
Strategies for maintaining heart health. 11/15:56-64
Topics in Geriatrics: Managing dyslipidemia in older adults. 2/28:11-23
Using drugs to prevent CVD in high-risk patients. 10/15:40-55
Varicose veins: A primary care update. 10/30:33-41

DERMATOLOGY

Actinic keratoses: New therapies, new thinking. 10/15:21-34
Common dermatologic problems in athletes. 6/15:43-59
Dermatologic signs of systemic disease. 4/15:39-53
Skin biopsy: Selecting an optimal technique. 3/30:11-21

DIABETES

ACE inhibitors: First-line therapy in diabetes. 4/15:103-118
Advances in slowing the progress of diabetic nephropathy. 9/30:28-41
How to manage diabetes in the older patient. 1/30:53-69
Individualizing insulin therapy for optimum glycemic control. 1/15:35-47
Managing geriatric endocrine disorders. 11/15:43-55
New treatments for lower extremity ulcers. 12/15:13-26
Using insulin in type 2 diabetes. 7/30: 36-48

DIAGNOSTICS

Bone mineral density testing: Who, when, how. 1/15:62-81
Medical myths: Today's perspectives. 9/15:34-51

DRUGS

A practical update on antiretroviral therapy. 1/15:99-106
A prudent prescription for acute sinusitis. 4/15:54-67
Decisions in prescribing HRT. 5/15: 91-105
Do COX-2 inhibitors offer reduced GI toxicity? 6/30:12-27
Enhancing Your Practice: The direct-to-consumer advertising dilemma. 3/30:22-33
Enhancing Your Practice: To err is human: How to prevent medical errors. 6/15:95-104
Refining empiric prescribing of antibiotics. 1/30:70-86
Step care or stratified care for migraine? 3/30:34-47
Topics in Diabetes: ACE inhibitors: First-line therapy in diabetes. 4/15:103-118
Topics in diabetes: Advances in slowing the progress of diabetic nephropathy. 9/30:28-41
Topics in Diabetes: Individualizing insulin therapy for optimum glycemic control. 1/15:35-47
Topics in Geriatrics: Managing dyslipidemia in older adults. 2/28:11-23
Using insulin in type 2 diabetes. 7/30: 36-48
What is the role of angiotensin II receptor blockers? 11/30:40-45

EMERGENCY MEDICINE

Heatstroke: A medical emergency. 7/15:24-31
Office management of animal bites. 7/15:66-76

ENHANCING YOUR PRACTICE

Brief motivational interventions. 12/15: 29-32
Interviewing the challenging patient. 1/30:18-28
Personal digital assistants: Make them work for you. 3/15:38-53
Sharing decision making with patients. 4/15:21-35
The direct-to-consumer advertising dilemma. 3/30:22-33
To err is human: How to prevent medical errors. 6/15:95-104

GERIATRICS

AD research: 2001 and beyond. 2/15: 87-105
Cancer screening in older patients. 11/15:17-24
Contemporary drug treatment. 2/15: 54-67
Early detection of dementia and depression. 11/15:30-39
Health, safety, and the older driver. 1/15:22-34
Managing dyslipidemia in older adults. 2/28:11-23
Managing geriatric endocrine disorders. 11/15:43-55
Managing problem behaviors in AD. 2/15:34-53
Providing care for the caregiver. 2/15: 68-86
Strategies for early diagnosis. 2/15:22-32
Strategies for maintaining heart health. 11/15:56-64
Topics in Diabetes: How to manage diabetes in the older patient. 1/30: 53-69
Treating transient insomnia in older patients. 3/15:91-97

Continued on page 46

GASTROENTEROLOGY
Drug Spotlight: Do COX-2 inhibitors offer reduced GI toxicity? 6/30:12-27
Eradicating *Helicobacter pylori* infection. 4/15:91-100
Flexible sigmoidoscopy: A pictorial atlas. 9/30:13-27
Heartburn—when to worry. 4/30:40-49
Managing complicated GERD. 8/30:35-42
The latest approaches to pancreatic disease. 9/15:55-70

HEMATOLOGY
Helping patients through a sickle cell crisis. 12/30:29-35

HYPERTENSION
Nondrug approaches to hypertension. 6/15:20-41
Topics in Diabetes: Advances in slowing the progress of diabetic nephropathy. 9/30:28-41

INFECTIOUS DISEASE
A prudent prescription for acute sinusitis. 4/15:54-67
CAP: What the new guidelines advise. 12/15:36-59
Contagious diseases in athletes. 10/30:23-28
Eradicating *Helicobacter pylori* infection. 4/15:91-100
Lyme disease: The debate continues. 6/15:60-75
Preparing your practice for the influenza season. 9/15:18-33
Refining empiric prescribing of antibiotics. 1/30:70-86
Renewed efforts toward TB control. 2/28:37-51
The latest approaches to pancreatic disease. 9/15:55-70

INTEGRATIVE MEDICINE
CAM approaches to chronic pain. 7/30:21-30
Manual therapy for low back pain. 5/30:12-23
Nutrition and cancer prevention. 8/30:21-30

MEN'S HEALTH
Focus on penile disorders. 1/15:51-61
Individualizing BPH treatment. 6/30:28-42

MUSCULOSKELETAL AND CONNECTIVE TISSUE DISORDERS
Integrative Medicine: Manual therapy for low back pain. 5/30:12-23
Intricacies in the diagnosis and treatment of gout. 7/15:33-47
Musculoskeletal injuries in performing artists. 4/30:25-36

NEUROLOGY
Early detection of dementia and depression. 11/15:30-39
Effective options to treat cluster headache. 8/30:9-20
Step care or stratified care for migraine? 3/30:34-47

NUTRITION
Adolescent Medicine: Treating the obese teenager. 10/15:57-70
Advising patients about low-carbohydrate diets. 6/15:76-89
Are dietary supplements helpful or wasteful? 8/15:108-119
Cancer and heart disease: Lowering the risks. 8/15:71-91
Cautioning patients about extreme diets. 8/15:28-46
Integrative Medicine: Nutrition and cancer prevention. 8/30:21-30
Intervening in the obesity epidemic. 8/15:92-107
The impact of diet on chronic disease. 8/15:51-69

OPHTHALMOLOGY
Evaluation and management of red eye. 12/30:36-44

OSTEOPOROSIS
Assessing and maintaining bone health. 5/15:74-87
Bone mineral density testing: Who, when, how. 1/15:62-81

PAIN MANAGEMENT
Effective options to treat cluster headache. 8/30:9-20
Helping patients through a sickle cell crisis. 12/30:29-35
Integrative Medicine: CAM approaches to chronic pain. 7/30:21-30

PATIENT INFORMATION
A healthy low-carbohydrate diet. 6/15:90
A new view of antibiotics. 1/30:86
Healthy bones and exercise. 5/15:87
How to prevent heat illnesses. 7/15:32
Taking lipid-lowering drugs. 10/15:56
10 warning signs of Alzheimer's disease. 11/15:40
What is BPH? 6/30:45
What to do if you have heart attack warning signs. 3/15:72
What to do if your teen is overweight. 10/15:73
What to expect if you get the flu. 9/15:33
You don't deserve to be hurt by your partner. 4/15:88

PEDIATRICS
Helping patients through a sickle cell crisis. 12/30:29-35

PREVENTION/WELLNESS
Cancer and heart disease: Lowering the risks. 8/15:71-91
Using drugs to prevent CVD in high-risk patients. 10/15:40-55

PSYCHIATRY/BEHAVIORAL HEALTH
Adolescent Medicine: Treating the obese teenager. 10/15:57-70
Early detection of dementia and depression. 11/15:30-39
Identifying and managing eating disorders. 11/30:25-39
Managing borderline personality disorder. 12/15:60-64
Women's Health: PMS and PMDD: Identification and treatment. 1/30:29-50

PULMONARY/RESPIRATORY DISEASE
Lung cancer: Early intervention is key. 10/30:12-22

SLEEP DISORDERS
Topics in Geriatrics: Treating transient insomnia in older patients. 3/15:91-97

SPORTS MEDICINE
Contagious diseases in athletes. 10/30:23-28
Heatstroke: A medical emergency. 7/15:24-31
Musculoskeletal injuries in performing artists. 4/30:25-36

SURGERY
Revascularization in the 21st century. 1/15:82-98

TRAVEL MEDICINE
Travel medicine update. 5/30:25-37

WOMEN'S HEALTH
Assessing and maintaining bone health. 5/15:74-87
Complete care of the older woman. 5/15:23-34
Decisions in prescribing HRT. 5/15:91-105
Domestic violence: Detection and treatment. 4/15:68-88
Heart disease in older women. 5/15:60-73
How to perform an effective clinical breast exam. 12/30:11-17
New approaches to emergency contraception. 3/15:19-37
Ovarian cancer screening: An ongoing challenge. 7/30:14-20
PMS and PMDD: Identification and treatment. 1/30:29-50
